The screenshot shows the IBM Cloud console interface for managing Kubernetes clusters. The left sidebar contains navigation links for IBM Cloud, Kubernetes, Clusters, Reservations, Helm catalog, and Container Registry. The main content area is titled 'Kubernetes clusters' and features a table with the following columns: Name, State, Location, Worker count, Created, Version, and Infrastructure. A single cluster named 'mycluster-free' is listed with a 'Normal' state, located in 'Milan', and having 1 worker. A red badge indicates it 'Expires in 30 days'. The version is '1.24.8_1544' and the infrastructure is 'Classic'. At the top right of the cluster list, there is a 'Create cluster' button. The bottom of the table shows pagination information: 'Items per page: 25' and '1-1 of 1 item'.
